

Champagne Massage

5 Spray Showers with Power Boost

Experience the Sensation of the amazing **Champagne Massage** showers that offer 5 spray patterns, 3 unique settings and 2 combinations. the individual shower sprays are:

Soft Champagne Bubbles, 10 bubble jets for softer gentler flow
Hard Shower Spray, 39 jets provide 2 layers of hard full body spray
Fast Pulsating Massage 6 alternating jets provide massaging feel
 Plus **2 Combination sprays** that combine the hard shower spray with either the pulsating massage or champagne aerated streams.
 2.5 GPM Maximum flow rate at 80 psi, complies with federal codes and includes the Power Boost Advantage for improved performance in lower water pressure areas.

Chrome and brush nickel hand showers include the **Bungy** stainless steel stretch shower hose that stretches for greater tub area coverage!

The Power Boost Advantage

All **Champagne Massage** Showerheads and Hand Shower Kits include our Power Boost Advantage, a flow regulating system that allows the user with less than 80 psi water pressure to adjust the force, and flow rate, of the shower insuring a good quality shower at any water pressure. This consists of a series of 3 brass flow restricting discs, each with a slightly larger thru hole for maximum comfort in lower water pressure situations. Designed to provide a strong 2.5 GPM shower at 80 psi, maximum allowed by Federal Codes, this allows those with lower pressure to still get a good shower without wasting water or energy!.
